Ode to Newman-O's

You might, m'lady tweak my nose. You could, m'lord step on my toes. But Heaven help those poor bozos, who try to filch my Newman-O's.

Some Information About Organic Palm Fruit Oil

Organic Palm Fruit Oil:
- Is not hydrogenated
- Contains no trans-fatty acids
- Is lower in saturated fat than butter and has no cholesterol
- Is widely used in Europe as an alternative to partially hydrogenated oils
- Is extracted from the palm's fruit not the palm's kernel
- Can be grown organically in tropical regions
- Of the three tropical oils, Palm Fruit Oil is 50% saturated while Palm Kernel Oil is 86%, and Coconut Oil is 92% saturated.
