SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Health care costs in the United States are rising rapidly. On a per capita basis, the United States spends 40 percent more than any other country on health care as a proportion of our gross domestic product.

(2) The United States spends over $1,800,000,000,000 annually on health care, 75 percent of which is spent on the treatment of chronic disease.

(3) However, only 2 percent of annual health care spending in the United States goes toward the prevention of chronic diseases.

(4) The high cost of chronic disease management and treatment is a major contributing factor to these exploding health care costs.

(5) Reducing and preventing the incidence of chronic disease is one means by which to reduce health care costs in the United States.

(6) More than 1,700,000 Americans die of a chronic disease each year, accounting for nearly 70 percent of all United States deaths.

(7) In 2000, 38.2 percent of all deaths were due to tobacco use, poor nutrition and physical inactivity, and alcohol consumption.
The economic impact of chronic disease can be seen in the annual costs associated with cardiovascular disease $352,000,000,000 obesity $117,000,000,000, tobacco use $75,000,000,000 and mental illness $150,000,000,000.

In 2001 obesity related health conditions carried a $13,000,000,000 price tag to employers (as determined by the Department of Health and Human Services).

Health promotion investments by employers on average yield a return $3 for every $1 invested in a program.

Being overweight or obese increase the risk of diabetes, heart disease, stroke, several types of cancer and other health problems.

An estimated 65 percent of adults and 15 percent of children and adolescents in the United States are overweight or obese.

The rates of obesity have doubled in children and tripled in teens since the 1980’s.

An estimated 400,000 deaths a year are associated with being overweight or obese.

Almost 40 percent of Americans are sedentary. More than a third of young people in grades
9 through 12 do not regularly engage in vigorous-intensity physical activity.

(16) Only 1 in 5 young people eat the recommended 5 daily servings of fruits and vegetables.

(17) More than $12,000,000,000 a year is spent on advertising and marketing, mostly unhealthy food to children through television, the internet, movies, magazines, in-school marketing, kids clubs, toys, coupons, product placement in movies and books.

(18) Approximately one-quarter of walking trips take place on roads without sidewalks or shoulders and bike lanes are available for only about 5 percent of bike trips.

(19) Virtually all-new users of tobacco products are under the minimum legal age to purchase such products. Every day in America, more than 4,000 kids try their first cigarette. Another 2,000 children become new daily smokers.

(20) In 2002, 61,000,000 Americans, 26 percent of our population smoked cigarettes.

(21) Research consistently shows that smoking cessation services offered as a combination of tobacco medication therapy and counseling can be one
of the most cost-effective health interventions and can reduce smoking-related health care costs.

(22) Physical and mental health are inter-connected. Physical conditions often result in mental health complications, likewise, depression can manifest itself through physical symptoms.

(23) The Surgeon General reported that mental disorders collectively account for 15 percent of the overall burden of disease from all causes, and slightly more than the burden associated with all forms of cancer.

(24) Major depression is the leading cause of disability in the United States.

(25) One of every 2 people who need mental health treatment in the United States does not receive it and 30,000 Americans die by suicide each year.

(26) Early screening and prevention programs in the schools can detect high risk children that are vulnerable to developing mental illness and assist in accessing appropriate services.

(27) People with disabilities report substantial disparities in health compared with people without disabilities. These disparities are caused by a number of factors, including less access to health care.
than individuals without disabilities. People with disabilities report more days of pain, depression, and anxiety and they have higher rates of obesity.

(28) Evidence shows that health promotion programs with exercise, nutrition, and wellness components targeting people with disabilities can significantly reduce the incidence of these conditions and lead to healthy outcomes for people with disabilities, as well as save money by reducing the frequency of medical visits.

Subtitle C—Family Smoking
Prevention and Control

SEC. 221. SHORT TITLE.
This subtitle may be cited as the “Family Smoking Prevention and Tobacco Control Act”.

SEC. 222. FINDINGS.
The Congress finds the following:

(1) The use of tobacco products by the Nation’s children is a pediatric disease of considerable proportions that results in new generations of tobacco-dependent children and adults.

(2) A consensus exists within the scientific and medical communities that tobacco products are inherently dangerous and cause cancer, heart disease, and other serious adverse health effects.

(3) Nicotine is an addictive drug.

(4) Virtually all new users of tobacco products are under the minimum legal age to purchase such products.

(5) Tobacco advertising and marketing contribute significantly to the use of nicotine-containing tobacco products by adolescents.

(6) Because past efforts to restrict advertising and marketing of tobacco products have failed adequately to curb tobacco use by adolescents, com-
prehensive restrictions on the sale, promotion, and
distribution of such products are needed.

(7) Federal and State governments have lacked
the legal and regulatory authority and resources
they need to address comprehensively the public
health and societal problems caused by the use of to-
bacco products.

(8) Federal and State public health officials,
the public health community, and the public at large
recognize that the tobacco industry should be subject
to ongoing oversight.

(9) Under article I, section 8 of the Constitu-
tion, the Congress is vested with the responsibility
for regulating interstate commerce and commerce
with Indian tribes.

(10) The sale, distribution, marketing, adver-
tising, and use of tobacco products are activities in
and substantially affecting interstate commerce be-
cause they are sold, marketed, advertised, and dis-
tributed in interstate commerce on a nationwide
basis, and have a substantial effect on the Nation’s
economy.

(11) The sale, distribution, marketing, adver-
tising, and use of such products substantially affect
interstate commerce through the health care and
other costs attributable to the use of tobacco products.

(12) It is in the public interest for Congress to enact legislation that provides the Food and Drug Administration with the authority to regulate tobacco products and the advertising and promotion of such products. The benefits to the American people from enacting such legislation would be significant in human and economic terms.

(13) Tobacco use is the foremost preventable cause of premature death in America. It causes over 400,000 deaths in the United States each year and approximately 8,600,000 Americans have chronic illnesses related to smoking.

(14) Reducing the use of tobacco by minors by 50 percent would prevent well over 6,500,000 of today’s children from becoming regular, daily smokers, saving over 2,000,000 of them from premature death due to tobacco induced disease. Such a reduction in youth smoking would also result in approximately $75,000,000,000 in savings attributable to reduced health care costs.

(15) Advertising, marketing, and promotion of tobacco products have been especially directed to attract young persons to use tobacco products and
these efforts have resulted in increased use of such
products by youth. Past efforts to oversee these ac-
tivities have not been successful in adequately pre-
venting such increased use.

(16) In 2001, the tobacco industry spent more
than $11,000,000,000 to attract new users, retain
current users, increase current consumption, and
generate favorable long-term attitudes toward smok-
ing and tobacco use.

(17) Tobacco product advertising often
misleadingly portrays the use of tobacco as socially
acceptable and healthful to minors.

(18) Tobacco product advertising is regularly
seen by persons under the age of 18, and persons
under the age of 18 are regularly exposed to tobacco
product promotional efforts.

(19) Through advertisements during and spon-
sorship of sporting events, tobacco has become
strongly associated with sports and has become por-
trayed as an integral part of sports and the healthy
lifestyle associated with rigorous sporting activity.

(20) Children are exposed to substantial and
unavoidable tobacco advertising that leads to favor-
able beliefs about tobacco use, plays a role in leading
young people to overestimate the prevalence of to-
bacco use, and increases the number of young people
who begin to use tobacco.

(21) The use of tobacco products in motion pic-
tures and other mass media glamorizes its use for
young people and encourages them to use tobacco
products.

(22) Tobacco advertising expands the size of
the tobacco market by increasing consumption of to-
bacco products including tobacco use by young peo-
ple.

(23) Children are more influenced by tobacco
advertising than adults, they smoke the most adver-
tised brands.

(24) Tobacco company documents indicate that
young people are an important and often crucial seg-
ment of the tobacco market. Children, who tend to
be more price-sensitive than adults, are influenced
by advertising and promotion practices that result in
drastically reduced cigarette prices.

(25) Comprehensive advertising restrictions will
have a positive effect on the smoking rates of young
people.

(26) Restrictions on advertising are necessary
to prevent unrestricted tobacco advertising from un-
dermining legislation prohibiting access to young
people and providing for education about tobacco use.

(27) International experience shows that advertising regulations that are stringent and comprehensive have a greater impact on overall tobacco use and young people’s use than weaker or less comprehensive ones.

(28) Text only requirements, although not as stringent as a ban, will help reduce underage use of tobacco products while preserving the informational function of advertising.

(29) It is in the public interest for Congress to adopt legislation to address the public health crisis created by actions of the tobacco industry.

(30) The final regulations promulgated by the Secretary of Health and Human Services in the August 28, 1996, issue of the Federal Register (61 Fed. Reg. 44615–44618) for inclusion as part 897 of title 21, Code of Federal Regulations, are consistent with the First Amendment to the United States Constitution and with the standards set forth in the amendments made by this subtitle for the regulation of tobacco products by the Food and Drug Administration and the restriction on the sale and distribution, including access to and the advertising
and promotion of, tobacco products contained in such regulations are substantially related to accomplishing the public health goals of this subtitle.

(31) The regulations described in paragraph (30) will directly and materially advance the Federal Government’s substantial interest in reducing the number of children and adolescents who use cigarettes and smokeless tobacco and in preventing the life-threatening health consequences associated with tobacco use. An overwhelming majority of Americans who use tobacco products begin using such products while they are minors and become addicted to the nicotine in those products before reaching the age of 18. Tobacco advertising and promotion plays a crucial role in the decision of these minors to begin using tobacco products. Less restrictive and less comprehensive approaches have not and will not be effective in reducing the problems addressed by such regulations. The reasonable restrictions on the advertising and promotion of tobacco products contained in such regulations will lead to a significant decrease in the number of minors using and becoming addicted to those products.

(32) The regulations described in paragraph (30) impose no more extensive restrictions on com-
munication by tobacco manufacturers and sellers
than are necessary to reduce the number of children
and adolescents who use cigarettes and smokeless to-
bacco and to prevent the life-threatening health con-
sequences associated with tobacco use. Such regula-
tions are narrowly tailored to restrict those adver-
tising and promotional practices which are most like-
ly to be seen or heard by youth and most likely to
entice them into tobacco use, while affording tobacco
manufacturers and sellers ample opportunity to con-
vey information about their products to adult con-
sumers.

(33) Tobacco dependence is a chronic disease,
one that typically requires repeated interventions to
achieve long-term or permanent abstinence.

(34) Because the only known safe alternative to
smoking is cessation, interventions should target all
smokers to help them quit completely.

(35) Tobacco products have been used to facili-
tate and finance criminal activities both domestically
and internationally. Illicit trade of tobacco products
has been linked to organized crime and terrorist
groups.

(36) It is essential that the Food and Drug Ad-
ministration review products sold or distributed for
use to reduce risks or exposures associated with tobacco products and that it be empowered to review any advertising and labeling for such products. It is also essential that manufacturers, prior to marketing such products, be required to demonstrate that such products will meet a series of rigorous criteria, and will benefit the health of the population as a whole, taking into account both users of tobacco products and persons who do not currently use tobacco products.

(37) Unless tobacco products that purport to reduce the risks to the public of tobacco use actually reduce such risks, those products can cause substantial harm to the public health to the extent that the individuals, who would otherwise not consume tobacco products or would consume such products less, use tobacco products purporting to reduce risk. Those who use products sold or distributed as modified risk products that do not in fact reduce risk, rather than quitting or reducing their use of tobacco products, have a substantially increased likelihood of suffering disability and premature death. The costs to society of the widespread use of products sold or distributed as modified risk products that do not in fact reduce risk or that increase risk include thou-
sands of unnecessary deaths and injuries and huge costs to our health care system.

(38) As the National Cancer Institute has found, many smokers mistakenly believe that “low tar” and “light” cigarettes cause fewer health problems than other cigarettes. As the National Cancer Institute has also found, mistaken beliefs about the health consequences of smoking “low tar” and “light” cigarettes can reduce the motivation to quit smoking entirely and thereby lead to disease and death.

(39) Recent studies have demonstrated that there has been no reduction in risk on a population-wide basis from “low tar” and “light” cigarettes and such products may actually increase the risk of tobacco use.

(40) The dangers of products sold or distributed as modified risk tobacco products that do not in fact reduce risk are so high that there is a compelling governmental interest in insuring that statements about modified risk tobacco products are complete, accurate, and relate to the overall disease risk of the product.

(41) As the Federal Trade Commission has found, consumers have misinterpreted advertise-
ments in which one product is claimed to be less
harmful than a comparable product, even in the
presence of disclosures and advisories intended to
provide clarification.

(42) Permitting manufacturers to make unsub-
stantiated statements concerning modified risk to-
bacco products, whether express or implied, even if
accompanied by disclaimers would be detrimental to
the public health.

(43) The only way to effectively protect the
public health from the dangers of unsubstantiated
modified risk tobacco products is to empower the
Food and Drug Administration to require that prod-
ucts that tobacco manufacturers sold or distributed
for risk reduction be approved in advance of mar-
keting, and to require that the evidence relied on to
support approval of these products is rigorous.

SEC. 223. PURPOSE.
The purposes of this subtitle are—

(1) to provide authority to the Food and Drug
Administration to regulate tobacco products under
the Federal Food, Drug, and Cosmetic Act (21
U.S.C. 301 et seq.), by recognizing it as the primary
Federal regulatory authority with respect to the
manufacture, marketing, and distribution of tobacco products;

(2) to ensure that the Food and Drug Administration has the authority to address issues of particular concern to public health officials, especially the use of tobacco by young people and dependence on tobacco;

(3) to authorize the Food and Drug Administration to set national standards controlling the manufacture of tobacco products and the identity, public disclosure, and amount of ingredients used in such products;

(4) to provide new and flexible enforcement authority to ensure that there is effective oversight of the tobacco industry’s efforts to develop, introduce, and promote less harmful tobacco products;

(5) to vest the Food and Drug Administration with the authority to regulate the levels of tar, nicotine, and other harmful components of tobacco products;

(6) in order to ensure that consumers are better informed, to require tobacco product manufacturers to disclose research which has not previously been made available, as well as research generated in the
future, relating to the health and dependency effects
or safety of tobacco products;

(7) to continue to permit the sale of tobacco
products to adults in conjunction with measures to
ensure that they are not sold or accessible to under-
age purchasers;

(8) to impose appropriate regulatory controls on
the tobacco industry;

(9) to promote cessation to reduce disease risk
and the social costs associated with tobacco related
diseases; and

(10) to strengthen legislation against illicit
trade in tobacco products.

SEC. 224. SCOPE AND EFFECT.

(a) INTENDED EFFECT.—Nothing in this subtitle (or
an amendment made by this subtitle) shall be construed
to—

(1) establish a precedent with regard to any
other industry, situation, circumstance, or legal ac-
tion; or

(2) affect any action pending in Federal, State,
or Tribal court, or any agreement, consent decree, or
contract of any kind.

(b) AGRICULTURAL ACTIVITIES.—The provisions of
this subtitle (or an amendment made by this subtitle)
which authorize the Secretary to take certain actions with regard to tobacco and tobacco products shall not be con- 
strued to affect any authority of the Secretary of Agri- 
culture under existing law regarding the growing, cultiva- 
tion, or curing of raw tobacco.

SEC. 225. SEVERABILITY.

If any provision of this subtitle, the amendments 
made by this subtitle, or the application of any provision 
of this subtitle to any person or circumstance is held to be invalid, the remainder of this subtitle, the amendments 
made by this subtitle, and the application of the provisions 
of this subtitle to any other person or circumstance shall not be affected and shall continue to be enforced to the fullest extent possible.

Smoking Prevention and Tobacco Control Act shall be submitted to the Secretary not later than 15 months after such date of enactment.

“(3) Exemptions.—

“(A) In general.—The Secretary may by regulation, exempt from the requirements of this subsection tobacco products that are modified by adding or deleting a tobacco additive, or increasing or decreasing the quantity of an existing tobacco additive, if the Secretary determines that—

“(i) such modification would be a minor modification of a tobacco product authorized for sale under this Act;

“(ii) a report under this subsection is not necessary to ensure that permitting the tobacco product to be marketed would be appropriate for protection of the public health; and

“(iii) an exemption is otherwise appropriate.

“(B) Regulations.—Not later than 9 months after the date of enactment of the Family Smoking Prevention and Tobacco Control
Act, the Secretary shall issue regulations to im-
plement this paragraph.

“SEC. 906. GENERAL PROVISIONS RESPECTING CONTROL
OF TOBACCO PRODUCTS.

“(a) IN GENERAL.—Any requirement established by
or under section 902, 903, 905, or 909 applicable to a
tobacco product shall apply to such tobacco product until
the applicability of the requirement to the tobacco product
has been changed by action taken under section 907, sec-
tion 910, section 911, or subsection (d) of this section,
and any requirement established by or under section 902,
903, 905, or 909 which is inconsistent with a requirement
imposed on such tobacco product under section 907, sec-
tion 910, section 911, or subsection (d) of this section
shall not apply to such tobacco product.

“(b) INFORMATION ON PUBLIC ACCESS AND COM-
MENT.—Each notice of proposed rulemaking under section
907, 908, 909, 910, or 911 or under this section, any
other notice which is published in the Federal Register
with respect to any other action taken under any such sec-
tion and which states the reasons for such action, and
each publication of findings required to be made in con-
nection with rulemaking under any such section shall set
forth—
“(1) the manner in which interested persons may examine data and other information on which the notice or findings is based; and

“(2) the period within which interested persons may present their comments on the notice or findings (including the need therefore) orally or in writing, which period shall be at least 60 days but may not exceed 90 days unless the time is extended by the Secretary by a notice published in the Federal Register stating good cause therefore.

“(c) Limited Confidentiality of Information.—Any information reported to or otherwise obtained by the Secretary or the Secretary’s representative under section 903, 904, 907, 908, 909, 910, 911, or 704, or under subsection (e) or (f) of this section, which is exempt from disclosure under subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) of that section shall be considered confidential and shall not be disclosed, except that the information may be disclosed to other officers or employees concerned with carrying out this chapter, or when relevant in any proceeding under this chapter.

“(d) Restrictions.—

“(1) In general.—The Secretary may by regulation require restrictions on the sale and distribu-
tion of a tobacco product, including restrictions on
the access to, and the advertising and promotion of,
the tobacco product, if the Secretary determines that
such regulation would be appropriate for the protec-
tion of the public health. The Secretary may by reg-
ulation impose restrictions on the advertising and
promotion of a tobacco product consistent with and
to full extent permitted by the first amendment to
the Constitution. The finding as to whether such
regulation would be appropriate for the protection of
the public health shall be determined with respect to
the risks and benefits to the population as a whole,
including users and non-users of the tobacco prod-
duct, and taking into account—

“(A) the increased or decreased likelihood
that existing users of tobacco products will stop
using such products; and

“(B) the increased or decreased likelihood
that those who do not use tobacco products will
start using such products.

No such regulation may require that the sale or dis-
tribution of a tobacco product be limited to the writ-
ten or oral authorization of a practitioner licensed
by law to prescribe medical products.
“(2) LABEL STATEMENTS.—The label of a tobacco product shall bear such appropriate statements of the restrictions required by a regulation under subsection (a) as the Secretary may in such regulation prescribe.

“(3) LIMITATIONS.—

“(A) IN GENERAL.—No restrictions under paragraph (1) may—

“(i) prohibit the sale of any tobacco product in face-to-face transactions by a specific category of retail outlets; or

“(ii) establish a minimum age of sale of tobacco products to any person older than 18 years of age.

“(B) MATCHBOOKS.—For purposes of any regulations issued by the Secretary, matchbooks of conventional size containing not more than 20 paper matches, and which are customarily given away for free with the purchase of tobacco products shall be considered as adult written publications which shall be permitted to contain advertising. Notwithstanding the preceding sentence, if the Secretary finds that such treatment of matchbooks is not appropriate for the protection of the public health, the Sec-
retary may determine by regulation that match-
books shall not be considered adult written pub-
lications.

“(e) Good Manufacturing Practice Require-
ments.—

“(1) Methods, facilities, and controls to
conform.—

“(A) In general.—The Secretary may, in
accordance with subparagraph (B), prescribe
regulations (which may differ based on the type
of tobacco product involved) requiring that the
methods used in, and the facilities and controls
used for, the manufacture, pre-production de-
sign validation (including a process to assess
the performance of a tobacco product), packing
and storage of a tobacco product, conform to
current good manufacturing practice, as pre-
scribed in such regulations, to assure that the
public health is protected and that the tobacco
product is in compliance with this chapter.

Good manufacturing practices may include the
testing of raw tobacco for pesticide chemical
residues regardless of whether a tolerance for
such chemical residues has been established.
“(B) REQUIREMENTS.—The Secretary shall—

“(i) before promulgating any regulation under subparagraph (A), afford the Tobacco Products Scientific Advisory Committee an opportunity to submit recommendations with respect to the regulation proposed to be promulgated;

“(ii) before promulgating any regulation under subparagraph (A), afford opportunity for an oral hearing;

“(iii) provide the advisory committee a reasonable time to make its recommendation with respect to proposed regulations under subparagraph (A); and

“(iv) in establishing the effective date of a regulation promulgated under this subsection, take into account the differences in the manner in which the different types of tobacco products have historically been produced, the financial resources of the different tobacco product manufacturers, and the state of their existing manufacturing facilities, and shall provide for a reasonable period of time for
such manufacturers to conform to good
manufacturing practices.

“(2) EXEMPTIONS; VARIANCES.—

“(A) PETITION.—Any person subject to
any requirement prescribed under paragraph
(1) may petition the Secretary for a permanent
or temporary exemption or variance from such
requirement. Such a petition shall be submitted
to the Secretary in such form and manner as
the Secretary shall prescribe and shall—

“(i) in the case of a petition for an ex-
emption from a requirement, set forth the
basis for the petitioner’s determination
that compliance with the requirement is
not required to assure that the tobacco
product will be in compliance with this
chapter;

“(ii) in the case of a petition for a
variance from a requirement, set forth the
methods proposed to be used in, and the
facilities and controls proposed to be used
for, the manufacture, packing, and storage
of the tobacco product in lieu of the meth-
ods, facilities, and controls prescribed by
the requirement; and
“(iii) contain such other information
as the Secretary shall prescribe.

“(B) Referral to the Tobacco Products Scientific Advisory Committee.—The Secretary may refer to the Tobacco Products Scientific Advisory Committee any petition submitted under subparagraph (A). The Tobacco Products Scientific Advisory Committee shall report its recommendations to the Secretary with respect to a petition referred to it within 60 days after the date of the petition’s referral. Within 60 days after—

“(i) the date the petition was submitted to the Secretary under subparagraph (A); or

“(ii) the day after the petition was referred to the Tobacco Products Scientific Advisory Committee,

whichever occurs later, the Secretary shall by order either deny the petition or approve it.

“(C) Approval.—The Secretary may approve—

“(i) a petition for an exemption for a tobacco product from a requirement if the Secretary determines that compliance with
such requirement is not required to assure
that the tobacco product will be in compli-
ance with this chapter; and

“(ii) a petition for a variance for a to-
bacco product from a requirement if the
Secretary determines that the methods to
be used in, and the facilities and controls
to be used for, the manufacture, packing,
and storage of the tobacco product in lieu
of the methods, controls, and facilities pre-
scribed by the requirement are sufficient to
assure that the tobacco product will be in
compliance with this chapter.

“(D) CONDITIONS.—An order of the Sec-
retary approving a petition for a variance shall
prescribe such conditions respecting the meth-
ods used in, and the facilities and controls used
for, the manufacture, packing, and storage of
the tobacco product to be granted the variance
under the petition as may be necessary to as-
sure that the tobacco product will be in compli-
ance with this chapter.

“(E) HEARING.—After the issuance of an
order under subparagraph (B) respecting a pe-
tion, the petitioner shall have an opportunity
for an informal hearing on such order.

“(3) COMPLIANCE.—Compliance with require-
ments under this subsection shall not be required be-
fore the period ending 3 years after the date of en-
actment of the Family Smoking Prevention and To-
bacco Control Act.

“(f) RESEARCH AND DEVELOPMENT.—The Secretary
may enter into contracts for research, testing, and dem-
onstrations respecting tobacco products and may obtain
tobacco products for research, testing, and demonstration
purposes without regard to section 3324(a) and (b) of title
31, United States Code, and section 5 of title 41, United
States Code.

“SEC. 907. TOBACCO PRODUCT STANDARDS.

“(a) IN GENERAL.—

“(1) SPECIAL RULE FOR CIGARETTES.—A ciga-
rette or any of its component parts (including the

tobacco, filter, or paper) shall not contain, as a con-
stituent (including a smoke constituent) or additive,
an artificial or natural flavor (other than tobacco or
menthol) or an herb or spice, including strawberry,
grape, orange, clove, cinnamon, pineapple, vanilla,
coconut, licorice, cocoa, chocolate, cherry, or coffee,
that is a characterizing flavor of the tobacco product
or tobacco smoke. Nothing in this subparagraph shall be construed to limit the Secretary’s authority to take action under this section or other sections of this Act applicable to menthol or any artificial or natural flavor, herb, or spice not specified in this paragraph.

“(2) Revision of Tobacco Product Standards.—The Secretary may revise the tobacco product standards in paragraph (1) in accordance with subsection (b).

“(3) Tobacco Product Standards.—The Secretary may adopt tobacco product standards in addition to those in paragraph (1) if the Secretary finds that a tobacco product standard is appropriate for the protection of the public health. This finding shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account—

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.
“(4) CONTENT OF TOBACCO PRODUCT STANDARDS.—A tobacco product standard established under this section for a tobacco product—

“(A) shall include provisions that are appropriate for the protection of the public health, including provisions, where appropriate—

“(i) for the reduction of nicotine yields of the product;

“(ii) for the reduction or elimination of other constituents, including smoke constituents, or harmful components of the product; or

“(iii) relating to any other requirement under (B);

“(B) shall, where appropriate for the protection of the public health, include—

“(i) provisions respecting the construction, components, ingredients, additives, constituents, including smoke constituents, and properties of the tobacco product;

“(ii) provisions for the testing (on a sample basis or, if necessary, on an individual basis) of the tobacco product;
“(iii) provisions for the measurement of the tobacco product characteristics of the tobacco product;

“(iv) provisions requiring that the results of each or of certain of the tests of the tobacco product required to be made under clause (ii) show that the tobacco product is in conformity with the portions of the standard for which the test or tests were required; and

“(v) a provision requiring that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d); and

“(C) shall, where appropriate, require the use and prescribe the form and content of labeling for the proper use of the tobacco product.

“(5) PERIODIC RE-EVALUATION OF TOBACCO PRODUCT STANDARDS.—The Secretary shall provide for periodic evaluation of tobacco product standards established under this section to determine whether such standards should be changed to reflect new medical, scientific, or other technological data. The
Secretary may provide for testing under paragraph (4)(B) by any person.

“(6) INVOLVEMENT OF OTHER AGENCIES; INFORMED PERSONS.—In carrying out duties under this section, the Secretary shall endeavor to—

“(A) use personnel, facilities, and other technical support available in other Federal agencies;

“(B) consult with other Federal agencies concerned with standard-setting and other nationally or internationally recognized standard-setting entities; and

“(C) invite appropriate participation, through joint or other conferences, workshops, or other means, by informed persons representative of scientific, professional, industry, agricultural, or consumer organizations who in the Secretary’s judgment can make a significant contribution.

“(b) ESTABLISHMENT OF STANDARDS.—

“(1) NOTICE.—

“(A) IN GENERAL.—The Secretary shall publish in the Federal Register a notice of proposed rulemaking for the establishment, amend-
ment, or revocation of any tobacco product standard.

“(B) Requirements of notice.—A notice of proposed rulemaking for the establishment or amendment of a tobacco product standard for a tobacco product shall—

“(i) set forth a finding with supporting justification that the tobacco product standard is appropriate for the protection of the public health;

“(ii) set forth proposed findings with respect to the risk of illness or injury that the tobacco product standard is intended to reduce or eliminate; and

“(iii) invite interested persons to submit an existing tobacco product standard for the tobacco product, including a draft or proposed tobacco product standard, for consideration by the Secretary.

“(C) Standard.—Upon a determination by the Secretary that an additive, constituent (including smoke constituent), or other component of the product that is the subject of the proposed tobacco product standard is harmful, it shall be the burden of any party challenging
the proposed standard to prove that the pro-
posed standard will not reduce or eliminate the
risk of illness or injury.

“(D) FINDING.—A notice of proposed rule-
making for the revocation of a tobacco product
standard shall set forth a finding with sup-
porting justification that the tobacco product
standard is no longer appropriate for the pro-
tection of the public health.

“(E) CONSIDERATION BY SECRETARY.—
The Secretary shall consider all information
submitted in connection with a proposed stand-
ard, including information concerning the coun-
tervailing effects of the tobacco product stand-
ard on the health of adolescent tobacco users,
adult tobacco users, or non-tobacco users, such
as the creation of a significant demand for con-
traband or other tobacco products that do not
meet the requirements of this chapter and the
significance of such demand, and shall issue the
standard if the Secretary determines that the
standard would be appropriate for the protec-
tion of the public health.
“(F) Comment.—The Secretary shall provide for a comment period of not less than 60 days.

“(2) Promulgation.—

“(A) In General.—After the expiration of the period for comment on a notice of proposed rulemaking published under paragraph (1) respecting a tobacco product standard and after consideration of such comments and any report from the Tobacco Products Scientific Advisory Committee, the Secretary shall—

“(i) promulgate a regulation establishing a tobacco product standard and publish in the Federal Register findings on the matters referred to in paragraph (1);

or

“(ii) publish a notice terminating the proceeding for the development of the standard together with the reasons for such termination.

“(B) Effective Date.—A regulation establishing a tobacco product standard shall set forth the date or dates upon which the standard shall take effect, but no such regulation may take effect before 1 year after the date of its
publication unless the Secretary determines that an earlier effective date is necessary for the protection of the public health. Such date or dates shall be established so as to minimize, consistent with the public health, economic loss to, and disruption or dislocation of, domestic and international trade.

“(3) POWER RESERVED TO CONGRESS.—Because of the importance of a decision of the Secretary to issue a regulation establishing a tobacco product standard—

“(A) banning all cigarettes, all smokeless tobacco products, all little cigars, all cigars other than little cigars, all pipe tobacco, or all roll your own tobacco products; or

“(B) requiring the reduction of nicotine yields of a tobacco product to zero,

Congress expressly reserves to itself such power.

“(4) AMENDMENT; REVOCATION.—

“(A) AUTHORITY.—The Secretary, upon the Secretary’s own initiative or upon petition of an interested person may by a regulation, promulgated in accordance with the requirements of paragraphs (1) and (2)(B), amend or revoke a tobacco product standard.
“(B) EFFECTIVE DATE.—The Secretary may declare a proposed amendment of a tobacco product standard to be effective on and after its publication in the Federal Register and until the effective date of any final action taken on such amendment if the Secretary determines that making it so effective is in the public interest.

“(5) REFERENCE TO ADVISORY COMMITTEE.—The Secretary may—

“(A) on the Secretary’s own initiative, refer a proposed regulation for the establishment, amendment, or revocation of a tobacco product standard; or

“(B) upon the request of an interested person which demonstrates good cause for referral and which is made before the expiration of the period for submission of comments on such proposed regulation, refer such proposed regulation to the Tobacco Products Scientific Advisory Committee, for a report and recommendation with respect to any matter involved in the proposed regulation which requires the exercise of scientific judgment. If a proposed regulation is referred under this paragraph to the Tobacco Products Scientific
Advisory Committee, the Secretary shall provide the advisory committee with the data and information on which such proposed regulation is based. The Tobacco Products Scientific Advisory Committee shall, within 60 days after the referral of a proposed regulation and after independent study of the data and information furnished to it by the Secretary and other data and information before it, submit to the Secretary a report and recommendation respecting such regulation, together with all underlying data and information and a statement of the reason or basis for the recommendation. A copy of such report and recommendation shall be made public by the Secretary.

“SEC. 908. NOTIFICATION AND OTHER REMEDIES.

“(a) NOTIFICATION.—If the Secretary determines that—

“(1) a tobacco product which is introduced or delivered for introduction into interstate commerce for commercial distribution presents an unreasonable risk of substantial harm to the public health; and

“(2) notification under this subsection is necessary to eliminate the unreasonable risk of such harm and no more practicable means is available under the provisions of this chapter (other than this section) to eliminate such risk,
the Secretary may issue such order as may be necessary
to assure that adequate notification is provided in an ap-
appropriate form, by the persons and means best suited
under the circumstances involved, to all persons who
should properly receive such notification in order to elimi-
nate such risk. The Secretary may order notification by
any appropriate means, including public service announce-
ments. Before issuing an order under this subsection, the
Secretary shall consult with the persons who are to give
notice under the order.

“(b) No Exemption From Other Liability.—
Compliance with an order issued under this section shall
not relieve any person from liability under Federal or
State law. In awarding damages for economic loss in an
action brought for the enforcement of any such liability,
the value to the plaintiff in such action of any remedy
provided under such order shall be taken into account.

“(c) Recall Authority.—
“(1) In General.—If the Secretary finds that
there is a reasonable probability that a tobacco prod-
uct contains a manufacturing or other defect not or-
dinarily contained in tobacco products on the market
that would cause serious, adverse health con-
sequences or death, the Secretary shall issue an
order requiring the appropriate person (including the
manufacturers, importers, distributors, or retailers of
the tobacco product) to immediately cease distribu-
tion of such tobacco product. The order shall provide
the person subject to the order with an opportunity
for an informal hearing, to be held not later than 10
days after the date of the issuance of the order, on
the actions required by the order and on whether the
order should be amended to require a recall of such
tobacco product. If, after providing an opportunity
for such a hearing, the Secretary determines that in-
adequate grounds exist to support the actions re-
quired by the order, the Secretary shall vacate the
order.

“(2) Amendment of order to require re-
call.—

“(A) In general.—If, after providing an
opportunity for an informal hearing under
paragraph (1), the Secretary determines that
the order should be amended to include a recall
of the tobacco product with respect to which the
order was issued, the Secretary shall, except as
provided in subparagraph (B), amend the order
to require a recall. The Secretary shall specify
a timetable in which the tobacco product recall
will occur and shall require periodic reports to
the Secretary describing the progress of the recall.

“(B) NOTICE.—An amended order under subparagraph (A)—

“(i) shall not include recall of a tobacco product from individuals; and

“(ii) shall provide for notice to persons subject to the risks associated with the use of such tobacco product.

In providing the notice required by clause (ii), the Secretary may use the assistance of retailers and other persons who distributed such tobacco product. If a significant number of such persons cannot be identified, the Secretary shall notify such persons under section 705(b).

“(3) REMEDY NOT EXCLUSIVE.—The remedy provided by this subsection shall be in addition to remedies provided by subsection (a) of this section.

“SEC. 909. RECORDS AND REPORTS ON TOBACCO PRODUCTS.

“(a) IN GENERAL.—Every person who is a tobacco product manufacturer or importer of a tobacco product shall establish and maintain such records, make such reports, and provide such information, as the Secretary may by regulation reasonably require to assure that such to-
bacco product is not adulterated or misbranded and to
otherwise protect public health. Regulations prescribed
under the preceding sentence—

“(1) may require a tobacco product manufac-
turer or importer to report to the Secretary when-
ever the manufacturer or importer receives or other-
wise becomes aware of information that reasonably
suggests that one of its marketed tobacco products
may have caused or contributed to a serious unex-
pected adverse experience associated with the use of
the product or any significant increase in the fre-
quency of a serious, expected adverse product experi-
ence;

“(2) shall require reporting of other significant
adverse tobacco product experiences as determined
by the Secretary to be necessary to be reported;

“(3) shall not impose requirements unduly bur-
densome to a tobacco product manufacturer or im-
porter, taking into account the cost of complying
with such requirements and the need for the protec-
tion of the public health and the implementation of
this chapter;

“(4) when prescribing the procedure for making
requests for reports or information, shall require
that each request made under such regulations for
submission of a report or information to the Sec-
retary state the reason or purpose for such request
and identify to the fullest extent practicable such re-
port or information;

“(5) when requiring submission of a report or
information to the Secretary, shall state the reason
or purpose for the submission of such report or in-
formation and identify to the fullest extent prac-
ticable such report or information; and

“(6) may not require that the identity of any
patient or user be disclosed in records, reports, or
information required under this subsection unless re-
quired for the medical welfare of an individual, to
determine risks to public health of a tobacco prod-
uct, or to verify a record, report, or information sub-
mited under this chapter.

In prescribing regulations under this subsection, the Sec-
retary shall have due regard for the professional ethics of
the medical profession and the interests of patients. The
prohibitions of paragraph (6) continue to apply to records,
reports, and information concerning any individual who
has been a patient, irrespective of whether or when he
ceases to be a patient.

“(b) Reports of Removals and Corrections.—
“(1) IN GENERAL.—Except as provided in para-
graph (2), the Secretary shall by regulation require
a tobacco product manufacturer or importer of a to-
bacco product to report promptly to the Secretary
any corrective action taken or removal from the
market of a tobacco product undertaken by such
manufacturer or importer if the removal or correc-
tion was undertaken—

“(A) to reduce a risk to health posed by
the tobacco product; or

“(B) to remedy a violation of this chapter
caused by the tobacco product which may
present a risk to health.

A tobacco product manufacturer or importer of a to-
bacco product who undertakes a corrective action or
removal from the market of a tobacco product which
is not required to be reported under this subsection
shall keep a record of such correction or removal.

“(2) EXCEPTION.—No report of the corrective
action or removal of a tobacco product may be re-
quired under paragraph (1) if a report of the correc-
tive action or removal is required and has been sub-
mited under subsection (a).
SEC. 910. APPLICATION FOR REVIEW OF CERTAIN TOBACCO PRODUCTS.

“(a) In General.—

“(1) New Tobacco Product Defined.—For purposes of this section the term ‘new tobacco product’ means—

“(A) any tobacco product (including those products in test markets) that was not commercially marketed in the United States as of June 1, 2003; or

“(B) any modification (including a change in design, any component, any part, or any constituent, including a smoke constituent, or in the content, delivery or form of nicotine, or any other additive or ingredient) of a tobacco product where the modified product was commercially marketed in the United States after June 1, 2003.

“(2) Premarket Approval Required.—

“(A) New Products.—Approval under this section of an application for premarket approval for any new tobacco product is required unless—

“(i) the manufacturer has submitted a report under section 905(j); and
“(ii) the Secretary has issued an order
that the tobacco product—

“(I) is substantially equivalent to
a tobacco product commercially mar-
keted (other than for test marketing)
in the United States as of June 1,
2003; and

“(II)(aa) is in compliance with
the requirements of this Act; or

“(bb) is exempt from the require-
ments of section 905(j) pursuant to a
regulation issued under section
905(j)(3).

“(B) Application to certain post
June 1, 2003 products.—Subparagraph (A)
shall not apply to a tobacco product—

“(i) that was first introduced or deliv-
ered for introduction into interstate com-
merce for commercial distribution in the
United States after June 1, 2003, and
prior to the date that is 15 months after
the date of enactment of the Family Smok-
ing Prevention and Tobacco Control Act; and
“(ii) for which a report was submitted under section 905(j) within such 15-month period, until the Secretary issues an order that the tobacco product is not substantially equivalent.

“(3) SUBSTANTIALLY EQUIVALENT DEFINED.—

“(A) IN GENERAL.—In this section and section 905(j), the terms ‘substantially equivalent’ or ‘substantial equivalence’ mean, with respect to the tobacco product being compared to the predicate tobacco product, that the Secretary by order has found that the tobacco product—

“(i) has the same characteristics as the predicate tobacco product; or

“(ii) has different characteristics and the information submitted contains information, including clinical data if deemed necessary by the Secretary, that demonstrates that it is not appropriate to regulate the product under this section because the product does not raise different questions of public health.

“(B) CHARACTERISTICS.—In subparagraph (A), the term ‘characteristics’ means the
materials, ingredients, design, composition, heating source, or other features of a tobacco product.

“(C) LIMITATION.—A tobacco product may not be found to be substantially equivalent to a predicate tobacco product that has been removed from the market at the initiative of the Secretary or that has been determined by a judicial order to be misbranded or adulterated.

“(4) HEALTH INFORMATION.—

“(A) SUMMARY.—As part of a submission under section 905(j) respecting a tobacco product, the person required to file a premarket notification under such section shall provide an adequate summary of any health information related to the tobacco product or state that such information will be made available upon request by any person.

“(B) REQUIRED INFORMATION.—Any summary under subparagraph (A) respecting a tobacco product shall contain detailed information regarding data concerning adverse health effects and shall be made available to the public by the Secretary within 30 days of the issuance of a
determination that such tobacco product is substantially equivalent to another tobacco product.

“(b) APPLICATION.—

“(1) CONTENTS.—An application for premarket approval shall contain—

“(A) full reports of all information, published or known to, or which should reasonably be known to, the applicant, concerning investigations which have been made to show the health risks of such tobacco product and whether such tobacco product presents less risk than other tobacco products;

“(B) a full statement of the components, ingredients, additives, and properties, and of the principle or principles of operation, of such tobacco product;

“(C) a full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and, when relevant, packing and installation of, such tobacco product;

“(D) an identifying reference to any tobacco product standard under section 907 which would be applicable to any aspect of such tobacco product, and either adequate informa-
tion to show that such aspect of such tobacco product fully meets such tobacco product standard or adequate information to justify any deviation from such standard;

“(E) such samples of such tobacco product and of components thereof as the Secretary may reasonably require;

“(F) specimens of the labeling proposed to be used for such tobacco product; and

“(G) such other information relevant to the subject matter of the application as the Secretary may require.

“(2) Reference to Tobacco Products Scientific Advisory Committee.—Upon receipt of an application meeting the requirements set forth in paragraph (1), the Secretary—

“(A) may, on the Secretary’s own initiative; or

“(B) may, upon the request of an applicant,

refer such application to the Tobacco Products Scientific Advisory Committee for reference and for submission (within such period as the Secretary may establish) of a report and recommendation respecting approval of the application, together with all un-
derlying data and the reasons or basis for the recommendation.

“(c) Action on Application.—

“(1) Deadline.—

“(A) In general.—As promptly as possible, but in no event later than 180 days after the receipt of an application under subsection (b), the Secretary, after considering the report and recommendation submitted under paragraph (2) of such subsection, shall—

“(i) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in paragraph (2) of this subsection applies; or

“(ii) deny approval of the application if the Secretary finds (and sets forth the basis for such finding as part of or accompanying such denial) that 1 or more grounds for denial specified in paragraph (2) of this subsection apply.

“(B) Restrictions on sale and distribution.—An order approving an application for a tobacco product may require as a condition to such approval that the sale and distribu-
tion of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d).

“(2) Denial of Approval.—The Secretary shall deny approval of an application for a tobacco product if, upon the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to such tobacco product, the Secretary finds that—

“(A) there is a lack of a showing that permitting such tobacco product to be marketed would be appropriate for the protection of the public health;

“(B) the methods used in, or the facilities or controls used for, the manufacture, processing, or packing of such tobacco product do not conform to the requirements of section 906(e);

“(C) based on a fair evaluation of all material facts, the proposed labeling is false or misleading in any particular; or

“(D) such tobacco product is not shown to conform in all respects to a tobacco product
standard in effect under section 907, compliance with which is a condition to approval of the application, and there is a lack of adequate information to justify the deviation from such standard.

“(3) Denial information.—Any denial of an application shall, insofar as the Secretary determines to be practicable, be accompanied by a statement informing the applicant of the measures required to place such application in approvable form (which measures may include further research by the applicant in accordance with 1 or more protocols prescribed by the Secretary).

“(4) Basis for finding.—For purposes of this section, the finding as to whether approval of a tobacco product is appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, including users and nonusers of the tobacco product, and taking into account—

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and
“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

“(5) BASIS FOR ACTION.—

“(A) INVESTIGATIONS.—For purposes of paragraph (2)(A), whether permitting a tobacco product to be marketed would be appropriate for the protection of the public health shall, when appropriate, be determined on the basis of well-controlled investigations, which may include 1 or more clinical investigations by experts qualified by training and experience to evaluate the tobacco product.

“(B) OTHER EVIDENCE.—If the Secretary determines that there exists valid scientific evidence (other than evidence derived from investigations described in subparagraph (A)) which is sufficient to evaluate the tobacco product the Secretary may authorize that the determination for purposes of paragraph (2)(A) be made on the basis of such evidence.

“(d) WITHDRAWAL AND TEMPORARY SUSPENSION.—

“(1) IN GENERAL.—The Secretary shall, upon obtaining, where appropriate, advice on scientific matters from an advisory committee, and after due
notice and opportunity for informal hearing to the holder of an approved application for a tobacco product, issue an order withdrawing approval of the application if the Secretary finds—

“(A) that the continued marketing of such tobacco product no longer is appropriate for the protection of the public health;

“(B) that the application contained or was accompanied by an untrue statement of a material fact;

“(C) that the applicant—

“(i) has failed to establish a system for maintaining records, or has repeatedly or deliberately failed to maintain records or to make reports, required by an applicable regulation under section 909;

“(ii) has refused to permit access to, or copying or verification of, such records as required by section 704; or

“(iii) has not complied with the requirements of section 905;

“(D) on the basis of new information before the Secretary with respect to such tobacco product, evaluated together with the evidence before the Secretary when the application was
approved, that the methods used in, or the fa-
cilities and controls used for, the manufacture,
processing, packing, or installation of such to-
bacco product do not conform with the require-
ments of section 906(e) and were not brought
into conformity with such requirements within a
reasonable time after receipt of written notice
from the Secretary of nonconformity;

“(E) on the basis of new information be-
fore the Secretary, evaluated together with the
evidence before the Secretary when the applica-
tion was approved, that the labeling of such to-
bacco product, based on a fair evaluation of all
material facts, is false or misleading in any par-
ticular and was not corrected within a reason-
able time after receipt of written notice from
the Secretary of such fact; or

“(F) on the basis of new information be-
fore the Secretary, evaluated together with the
evidence before the Secretary when the applica-
tion was approved, that such tobacco product is
not shown to conform in all respects to a to-
bacco product standard which is in effect under
section 907, compliance with which was a con-
dition to approval of the application, and that
there is a lack of adequate information to justify the deviation from such standard.

“(2) Appeal.—The holder of an application subject to an order issued under paragraph (1) withdrawing approval of the application may, by petition filed on or before the 30th day after the date upon which such holder receives notice of such withdrawal, obtain review thereof in accordance with subsection (e).

“(3) Temporary Suspension.—If, after providing an opportunity for an informal hearing, the Secretary determines there is reasonable probability that the continuation of distribution of a tobacco product under an approved application would cause serious, adverse health consequences or death, that is greater than ordinarily caused by tobacco products on the market, the Secretary shall by order temporarily suspend the approval of the application approved under this section. If the Secretary issues such an order, the Secretary shall proceed expeditiously under paragraph (1) to withdraw such application.

“(e) Service of Order.—An order issued by the Secretary under this section shall be served—
“(1) in person by any officer or employee of the department designated by the Secretary; or

“(2) by mailing the order by registered mail or certified mail addressed to the applicant at the applicant’s last known address in the records of the Secretary.

“(f) RECORDS.—

“(1) ADDITIONAL INFORMATION.—In the case of any tobacco product for which an approval of an application filed under subsection (b) is in effect, the applicant shall establish and maintain such records, and make such reports to the Secretary, as the Secretary may by regulation, or by order with respect to such application, prescribe on the basis of a finding that such records and reports are necessary in order to enable the Secretary to determine, or facilitate a determination of, whether there is or may be grounds for withdrawing or temporarily suspending such approval.

“(2) ACCESS TO RECORDS.—Each person required under this section to maintain records, and each person in charge or custody thereof, shall, upon request of an officer or employee designated by the Secretary, permit such officer or employee at all rea-
sonable times to have access to and copy and verify such records.

“(g) Investigational Tobacco Product Exemption for Investigational Use.—The Secretary may exempt tobacco products intended for investigational use from the provisions of this chapter under such conditions as the Secretary may by regulation prescribe.

“SEC. 911. Modified Risk Tobacco Products.

“(a) In General.—No person may introduce or deliver for introduction into interstate commerce any modified risk tobacco product unless approval of an application filed pursuant to subsection (d) is effective with respect to such product.

“(b) Definitions.—In this section:

“(1) Modified risk tobacco product.—The term ‘modified risk tobacco product’ means any tobacco product that is sold or distributed for use to reduce harm or the risk of tobacco-related disease associated with commercially marketed tobacco products.

“(2) Sold or distributed.—

“(A) In General.—With respect to a tobacco product, the term ‘sold or distributed for use to reduce harm or the risk of tobacco-related disease associated with commercially mar-
marketed tobacco products’ means a tobacco product—

“(i) the label, labeling, or advertising
of which represents explicitly or implicitly
that—

“(I) the tobacco product presents
a lower risk of tobacco-related disease
or is less harmful than one or more
other commercially marketed tobacco
products;

“(II) the tobacco product or its
smoke contains a reduced level of a
substance or presents a reduced expo-
sure to a substance; or

“(III) the tobacco product or its
smoke does not contain or is free of a
substance;

“(ii) the label, labeling, or advertising
of which uses the descriptors ‘light’, ‘mild’,
or ‘low’ or similar descriptors; or

“(iii) the tobacco product manufac-
turer of which has taken any action di-
rected to consumers through the media or
otherwise, other than by means of the to-
bacco product’s label, labeling or adver-
tising, after the date of enactment of the
Family Smoking Prevention and Tobacco
Control Act, respecting the product that
would be reasonably expected to result in
consumers believing that the tobacco prod-
uct or its smoke may present a lower risk
of disease or is less harmful than one or
more commercially marketed tobacco prod-
ucts, or presents a reduced exposure to, or
does not contain or is free of, a substance
or substances.

“(B) LIMITATION.—No tobacco product
shall be considered to be ‘sold or distributed for
use to reduce harm or the risk of tobacco-re-
lated disease associated with commercially mar-
keted tobacco products’, except as described in
subparagraph (A).

“(c) TOBACCO DEPENDENCE PRODUCTS.—A product
that is intended to be used for the treatment of tobacco
dependence, including smoking cessation, is not a modified
risk tobacco product under this section and is subject to
the requirements of chapter V.

“(d) FILING.—Any person may file with the Sec-
retary an application for a modified risk tobacco product.
Such application shall include—
“(1) a description of the proposed product and any proposed advertising and labeling;

“(2) the conditions for using the product;

“(3) the formulation of the product;

“(4) sample product labels and labeling;

“(5) all documents (including underlying scientific information) relating to research findings conducted, supported, or possessed by the tobacco product manufacturer relating to the effect of the product on tobacco related diseases and health-related conditions, including information both favorable and unfavorable to the ability of the product to reduce risk or exposure and relating to human health;

“(6) data and information on how consumers actually use the tobacco product; and

“(7) such other information as the Secretary may require.

“(e) P UBLIC A VAILABILITY.—The Secretary shall make the application described in subsection (d) publicly available (except matters in the application which are trade secrets or otherwise confidential, commercial information) and shall request comments by interested persons on the information contained in the application and on the
label, labeling, and advertising accompanying such application.

“(f) ADVISORY COMMITTEE.—

“(1) IN GENERAL.—The Secretary shall refer to an advisory committee any application submitted under this subsection.

“(2) RECOMMENDATIONS.—Not later than 60 days after the date an application is referred to an advisory committee under paragraph (1), the advisory committee shall report its recommendations on the application to the Secretary.

“(g) APPROVAL.—

“(1) MODIFIED RISK PRODUCTS.—Except as provided in paragraph (2), the Secretary shall approve an application for a modified risk tobacco product filed under this section only if the Secretary determines that the applicant has demonstrated that such product, as it is actually used by consumers, will—

“(A) significantly reduce harm and the risk of tobacco-related disease to individual tobacco users; and

“(B) benefit the health of the population as a whole taking into account both users of to-

S 2558 IS
bacco products and persons who do not currently use tobacco products.

“(2) Special rule for certain products.—

“(A) In general.—The Secretary may approve an application for a tobacco product that has not been approved as a modified risk tobacco product pursuant to paragraph (1) if the Secretary makes the findings required under this paragraph and determines that the applicant has demonstrated that—

“(i) the approval of the application would be appropriate to promote the public health;

“(ii) any aspect of the label, labeling, and advertising for such product that would cause the tobacco product to be a modified risk tobacco product under subsection (b)(2) is limited to an explicit or implicit representation that such tobacco product or its smoke contains or is free of a substance or contains a reduced level of a substance, or presents a reduced exposure to a substance in tobacco smoke;

“(iii) scientific evidence is not available and, using the best available scientific
methods, cannot be made available without conducting long-term epidemiological studies for an application to meet the standards set forth in paragraph (1); and

“(iv) the scientific evidence that is available without conducting long-term epidemiological studies demonstrates that a measurable and substantial reduction in morbidity or mortality among individual tobacco users is anticipated in subsequent studies.

“(B) ADDITIONAL FINDINGS REQUIRED.—In order to approve an application under subparagraph (A) the Secretary must also find that the applicant has demonstrated that—

“(i) the magnitude of the overall reductions in exposure to the substance or substances which are the subject of the application is substantial, such substance or substances are harmful, and the product as actually used exposes consumers to the specified reduced level of the substance or substances;

“(ii) the product as actually used by consumers will not expose them to higher
levels of other harmful substances compared to the similar types of tobacco products then on the market unless such increases are minimal and the anticipated overall impact of use of the product remains a substantial and measurable reduction in overall morbidity and mortality among individual tobacco users;

“(iii) testing of actual consumer perception shows that, as the applicant proposes to label and market the product, consumers will not be misled into believing that the product—

“(I) is or has been demonstrated to be less harmful; or

“(II) presents or has been demonstrated to present less of a risk of disease than 1 or more other commercially marketed tobacco products; and

“(iv) approval of the application is expected to benefit the health of the population as a whole taking into account both users of tobacco products and persons who do not currently use tobacco products.

“(C) CONDITIONS OF APPROVAL.—
“(i) In General.—Applications approved under this paragraph shall be limited to a term of not more than 5 years, but may be renewed upon a finding by the Secretary that the requirements of this paragraph continue to be satisfied based on the filing of a new application.

“(ii) Agreements by Applicant.—Applications approved under this paragraph shall be conditioned on the applicant’s agreement to conduct post-market surveillance and studies and to submit to the Secretary the results of such surveillance and studies to determine the impact of the application approval on consumer perception, behavior, and health and to enable the Secretary to review the accuracy of the determinations upon which the approval was based in accordance with a protocol approved by the Secretary.

“(iii) Annual Submission.—The results of such post-market surveillance and studies described in clause (ii) shall be submitted annually.
“(3) BASIS.—The determinations under paragraphs (1) and (2) shall be based on—

“(A) the scientific evidence submitted by the applicant; and

“(B) scientific evidence and other information that is available to the Secretary.

“(4) BENEFIT TO HEALTH OF INDIVIDUALS AND OF POPULATION AS A WHOLE.—In making the determinations under paragraphs (1) and (2), the Secretary shall take into account—

“(A) the relative health risks to individuals of the tobacco product that is the subject of the application;

“(B) the increased or decreased likelihood that existing users of tobacco products who would otherwise stop using such products will switch to the tobacco product that is the subject of the application;

“(C) the increased or decreased likelihood that persons who do not use tobacco products will start using the tobacco product that is the subject of the application;

“(D) the risks and benefits to persons from the use of the tobacco product that is the subject of the application as compared to the
use of products for smoking cessation approved
under chapter V to treat nicotine dependence;
and
“(E) comments, data, and information
submitted by interested persons.
“(h) ADDITIONAL CONDITIONS FOR APPROVAL.—
“(1) MODIFIED RISK PRODUCTS.—The Sec-
etary shall require for the approval of an applica-
tion under this section that any advertising or label-
ing concerning modified risk products enable the
public to comprehend the information concerning
modified risk and to understand the relative signifi-
cance of such information in the context of total
health and in relation to all of the diseases and
health-related conditions associated with the use of
tobacco products.
“(2) COMPARATIVE CLAIMS.—
“(A) IN GENERAL.—The Secretary may re-
quire for the approval of an application under
this subsection that a claim comparing a to-
bacco product to 1 or more other commercially
marketed tobacco products shall compare the
tobacco product to a commercially marketed to-
bacco product that is representative of that type
of tobacco product on the market (for example
the average value of the top 3 brands of an est-
established regular tobacco product).

“(B) QUANTITATIVE COMPARISONS.—The Secretary may also require, for purposes of sub-
paragraph (A), that the percent (or fraction) of change and identity of the reference tobacco product and a quantitative comparison of the amount of the substance claimed to be reduced shall be stated in immediate proximity to the most prominent claim.

“(3) LABEL DISCLOSURE.—

“(A) IN GENERAL.—The Secretary may re-
quire the disclosure on the label of other sub-
stances in the tobacco product, or substances that may be produced by the consumption of that tobacco product, that may affect a disease or health-related condition or may increase the risk of other diseases or health-related condi-
tions associated with the use of tobacco prod-
ucts.

“(B) CONDITIONS OF USE.—If the condi-
tions of use of the tobacco product may affect the risk of the product to human health, the Secretary may require the labeling of conditions of use.
“(4) Time.—The Secretary shall limit an approval under subsection (g)(1) for a specified period of time.

“(5) Advertising.—The Secretary may require that an applicant, whose application has been approved under this subsection, comply with requirements relating to advertising and promotion of the tobacco product.

“(i) Postmarket Surveillance and Studies.—

“(1) In general.—The Secretary shall require that an applicant under subsection (g)(1) conduct post market surveillance and studies for a tobacco product for which an application has been approved to determine the impact of the application approval on consumer perception, behavior, and health, to enable the Secretary to review the accuracy of the determinations upon which the approval was based, and to provide information that the Secretary determines is otherwise necessary regarding the use or health risks involving the tobacco product. The results of post-market surveillance and studies shall be submitted to the Secretary on an annual basis.

“(2) Surveillance Protocol.—Each applicant required to conduct a surveillance of a tobacco product under paragraph (1) shall, within 30 days
after receiving notice that the applicant is required
to conduct such surveillance, submit, for the ap-
proval of the Secretary, a protocol for the required
surveillance. The Secretary, within 60 days of the
receipt of such protocol, shall determine if the prin-
cipal investigator proposed to be used in the surveil-
lance has sufficient qualifications and experience to
conduct such surveillance and if such protocol will
result in collection of the data or other information
designated by the Secretary as necessary to protect
the public health.

“(j) WITHDRAWAL OF APPROVAL.—The Secretary,
after an opportunity for an informal hearing, shall with-
draw the approval of an application under this section if
the Secretary determines that—

“(1) the applicant, based on new information,
can no longer make the demonstrations required
under subsection (g), or the Secretary can no longer
make the determinations required under subsection
(g);

“(2) the application failed to include material
information or included any untrue statement of ma-
terial fact;
“(3) any explicit or implicit representation that the product reduces risk or exposure is no longer valid, including if—

“(A) a tobacco product standard is established pursuant to section 907;

“(B) an action is taken that affects the risks presented by other commercially marketed tobacco products that were compared to the product that is the subject of the application; or

“(C) any postmarket surveillance or studies reveal that the approval of the application is no longer consistent with the protection of the public health;

“(4) the applicant failed to conduct or submit the postmarket surveillance and studies required under subsection (g)(2)(C)(ii) or (i); or

“(5) the applicant failed to meet a condition imposed under subsection (h).

“(k) CHAPTER IV OR V.—A product approved in accordance with this section shall not be subject to chapter IV or V.

“(l) IMPLEMENTING REGULATIONS OR GUIDANCE.—

“(1) SCIENTIFIC EVIDENCE.—Not later than 2 years after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, the
Secretary shall issue regulations or guidance (or any combination thereof) on the scientific evidence required for assessment and ongoing review of modified risk tobacco products. Such regulations or guidance shall—

“(A) establish minimum standards for scientific studies needed prior to approval to show that a substantial reduction in morbidity or mortality among individual tobacco users is likely;

“(B) include validated biomarkers, intermediate clinical endpoints, and other feasible outcome measures, as appropriate;

“(C) establish minimum standards for post market studies, that shall include regular and long-term assessments of health outcomes and mortality, intermediate clinical endpoints, consumer perception of harm reduction, and the impact on quitting behavior and new use of tobacco products, as appropriate;

“(D) establish minimum standards for required postmarket surveillance, including ongoing assessments of consumer perception; and

“(E) require that data from the required studies and surveillance be made available to
the Secretary prior to the decision on renewal of a modified risk tobacco product.

“(2) CONSULTATION.—The regulations or guidance issued under paragraph (1) shall be developed in consultation with the Institute of Medicine, and with the input of other appropriate scientific and medical experts, on the design and conduct of such studies and surveillance.

“(3) REVISION.—The regulations or guidance under paragraph (1) shall be revised on a regular basis as new scientific information becomes available.

“(4) NEW TOBACCO PRODUCTS.—Not later than 2 years after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, the Secretary shall issue a regulation or guidance that permits the filing of a single application for any tobacco product that is a new tobacco product under section 910 and for which the applicant seeks approval as a modified risk tobacco product under this section.

“(m) DISTRIBUTORS.—No distributor may take any action, after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, with respect to a tobacco product that would reasonably be expected to result
in consumers believing that the tobacco product or its 
smoke may present a lower risk of disease or is less harm-
ful than one or more commercially marketed tobacco prod-
ucts, or presents a reduced exposure to, or does not con-
tain or is free of, a substance or substances.

“SEC. 912. JUDICIAL REVIEW.

petition under subsection (a) for judicial review of a regu-
lation or order, the court shall have jurisdiction to review
the regulation or order in accordance with chapter 7 of
title 5, United States Code, and to grant appropriate re-

The regulations may require that tobacco product manufacturers, packagers, or importers make disclosures relating to the results of the testing of tar and nicotine through labels or advertising or other appropriate means, and make disclosures regarding the results of the testing of other constituents, including smoke constituents, ingredients, or additives, that the Secretary determines should be disclosed to the public to protect the public health and will not mislead consumers about the risk of tobacco related disease.

“(n) Clarification of Economic Substance Doctrine; Etc.—

“(1) General rules.—
“(A) IN GENERAL.—In any case in which a court determines that the economic substance doctrine is relevant for purposes of this title to a transaction (or series of transactions), such transaction (or series of transactions) shall have economic substance only if the requirements of this paragraph are met.

“(B) DEFINITION OF ECONOMIC SUBSTANCE.—For purposes of subparagraph (A)—

“(i) IN GENERAL.—A transaction has economic substance only if—

“(I) the transaction changes in a meaningful way (apart from Federal tax effects) the taxpayer’s economic position, and

“(II) the taxpayer has a substantial nontax purpose for entering into such transaction and the transaction is a reasonable means of accomplishing such purpose.

In applying subclause (II), a purpose of achieving a financial accounting benefit shall not be taken into account in determining whether a transaction has a substantial nontax purpose if the origin of
such financial accounting benefit is a reduction of income tax.

“(ii) Special rule where taxpayer relies on profit potential.—A transaction shall not be treated as having economic substance by reason of having a potential for profit unless—

“(I) the present value of the reasonably expected pre-tax profit from the transaction is substantial in relation to the present value of the expected net tax benefits that would be allowed if the transaction were respected, and

“(II) the reasonably expected pre-tax profit from the transaction exceeds a risk-free rate of return.

“(C) Treatment of fees and foreign taxes.—Fees and other transaction expenses and foreign taxes shall be taken into account as expenses in determining pre-tax profit under subparagraph (B)(ii).

“(2) Special rules for transactions with tax-indifferent parties.—
“(A) **Special rules for financing transactions.**—The form of a transaction which is in substance the borrowing of money or the acquisition of financial capital directly or indirectly from a tax-indifferent party shall not be respected if the present value of the deductions to be claimed with respect to the transaction is substantially in excess of the present value of the anticipated economic returns of the person lending the money or providing the financial capital. A public offering shall be treated as a borrowing, or an acquisition of financial capital, from a tax-indifferent party if it is reasonably expected that at least 50 percent of the offering will be placed with tax-indifferent parties.

“(B) **Artificial income shifting and basis adjustments.**—The form of a transaction with a tax-indifferent party shall not be respected if—

“(i) it results in an allocation of income or gain to the tax-indifferent party in excess of such party’s economic income or gain, or
“(ii) it results in a basis adjustment or shifting of basis on account of overstating the income or gain of the tax-indifferent party.

“(3) DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

“(A) ECONOMIC SUBSTANCE DOCTRINE.—The term ‘economic substance doctrine’ means the common law doctrine under which tax benefits under subtitle A with respect to a transaction are not allowable if the transaction does not have economic substance or lacks a business purpose.

“(B) TAX-INDIFFERENT PARTY.—The term ‘tax-indifferent party’ means any person or entity not subject to tax imposed by subtitle A. A person shall be treated as a tax-indifferent party with respect to a transaction if the items taken into account with respect to the transaction have no substantial impact on such person’s liability under subtitle A.

“(C) EXCEPTION FOR PERSONAL TRANSACTIONS OF INDIVIDUALS.—In the case of an individual, this subsection shall apply only to transactions entered into in connection with a
trade or business or an activity engaged in for
the production of income.

“(D) Treatment of Lessors.—In applying paragraph (1)(B)(ii) to the lessor of tan-
gible property subject to a lease, the expected
net tax benefits with respect to the leased prop-
erty shall not be taken into account.

“(4) Other Common Law Doctrines Not Af-
fected.—Except as specifically provided in this
